

FAAS Team Oakland FSDO presents:

Hayward Executive Airport Pilot Controller Forum

Hayward Air Traffic Manager, Nadine Grundy, Airport Operations Supervisor David Decoteau, and Designated Pilot Examiner Vince Nastro will lead a presentation regarding recent surface incidents at the airport including a review of best practices that will help pilots operate safely. This will include a forum style discussion where pilots will be encouraged to ask questions, express concerns, and make suggestions. The goal of this meeting is to achieve optimum communications between Air Traffic, Airport Administration, and the General Aviation Community.

Directions: Take the A Street Exit from Interstate 880 and proceed westbound to Hayward Executive Airport. After crossing Hesperian Blvd. turn left on to Skywest Drive and make the second right turn into the driveway. The administration building is next to the Hayward Air Traffic Control Tower and parking is available in the parking lot. Flying attendees can request transient parking near the tower (4 spots only are available).

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
